EDUCATION

Lindenwood University

- Master of Arts in Game Design | GPA: 4.0

Expected December 2025

Fordham University – Rose Hill Campus

- Bachelor of Science in Computer Science.
- Relevant Coursework: Algorithms, Java, Networks, Data Mining, Operating Systems, Web Programming, Database.

May 2021

PROFESSIONAL EXPERIENCE

Computer Science Department Head – AECl 2 Charter High School

Sept 2021 – Current

- Lead curriculum design and department strategy across Computer Science, AI Development, Game Design, AP Computer Science, Robotics, Graphic Design, Physics of Engineering, and Spanish courses, teaching 150+ students annually.
- Mentor and manage teachers within the department, ensuring curriculum alignment and instructional quality.
- Developed custom software for the school using python, JSON, Microsoft Excel which includes:
 - Flush: a bathroom tracking app monitoring student usage and behavior.
 - Automated Google Sheets scripts for substitute teacher scheduling, staff payment, and regents exam.
 - School administration tools leveraging databases and spreadsheets to streamline reporting and operations.
- Designed and implemented hands-on curricula in Unity, Unreal, Python, and robotics platforms such as Vex IQ.
- Founded and directed extracurricular programs including Esports, Gaming Club, Drones & Robotics, and Dramatic Interpretation, expanding student engagement beyond the classroom.

Technical Assistant – Fordham U. Walsh Library

June 2019 – Sept 2019

- Provided technical support, resolving issues quickly to improve university productivity.
- Assisted in event setup and troubleshooting for guest speaker sessions and library events.

RELATED EXPERIENCE – LEADERSHIP ROLES

Researcher - Twitter WISDM Cybersecurity Research Internship

July 2018 – August 2018

- Developed object-oriented programming software to identify Twitter posts containing potential threats.

Lead Actor - Opening Act

Sept 2015 - May 2018

- Assisted with stage direction and script edits, contributing to increased audience engagement.

Vice-President - Fordham U. Esports & C. Science Fiction

May 2018 – May 2020

- Managed competitive esports teams and organized events, leading to tournament qualifications.

PROJECTS

"Crimson Wars" – Game Design

June 2022 – March 2023

- Developed a narrative-driven turn based strategy RPG using JavaScript and RPG Maker.
- Implemented unique gameplay mechanics that dynamically alter player experience based on story choices.

"Wrath of Azazel" – Game Design

September 2025

- Developed a 3D horror deck-building roguelike where players take the role of a vampire lord with multiple endings.
- Designed and coded the card system (ScriptableObjects, blood-cost mechanics, status effects, and deck flow)
- Created original card artwork and collaborated on gothic UI elements to match the game's horror aesthetic.
- Balanced mechanics for Physical, Mental, Social, Utility, and Defense card archetypes, ensuring engaging strategic play.
- Coordinated with a 8 member using Unity, GitHub, and Trello to deliver a functional prototype within 4 weeks.

Technical Skills

Programming Languages: C++, Python, Java, C#, HTML, CSS, JavaScript, PHP, SQL, R, Assembly

Game Development: Unity, Unreal Engine, GameMaker, RPG Maker, GDevelop5

Software & Tools: Photoshop, DaVinci 19, iMovie, Adobe Premiere, Final Cut Pro, Blender, Microsoft Office

Languages: Fluent in Spanish and Italian

Soft Skills: Leadership, Team Collaboration, Adaptability, Leadership, Problem-Solving, Decision-Making, Communication
